

SKEEETER[®]

PERFORMANCE FISHING BOATS

Saltwater

2013

Put yourself in a **SKEETER**

AND PUT THE WORLD BEHIND YOU.

WITH THE WIND IN YOUR FACE and your back to the world, life is perfect. We love saltwater fishing as much as you do. That's why we build performance and versatility into all our boats, so getting to the fish is as much fun as catching them. Plus, with our smart design features, there's plenty of room for your friends, your gear and a box full of fish.

THERE'S ONLY ONE JUDGE THE BOATER BEHIND THE WHEEL.

So we're both excited and grateful that, for the eleventh consecutive year, Skeeter was recognized for "Excellence in Customer Satisfaction for Fiberglass Outdoor Boats" as part of the 2012 Marine Industry CSI awards. The program honors companies that maintain a customer satisfaction rating of 90 percent or higher.

Excellence in Customer

LIMITED LIFETIME WARRANTY

- Skeeter offers the original retail purchaser a Structural Warranty that covers any major structural defects in the material or workmanship, for the duration of the ownership.
- Unlike most companies, the **Structural Warranty** may also be transferred to the second owner for a full **10 years from the first retail purchase date**.
- Skeeter also offers a Component Warranty to the first retail purchaser, where certain factory-installed parts are covered for up to three years from the date of purchase. The Component Warranty may not be transferred to a second owner and is subject to limitations outlined in the 2013 Skeeter Fiberglass Limited Warranty.

BAY BOAT Series

SX240 | SX2250 | SX220
SX220T | SX200

A Anchor storage box: Molded grooves hold fluke-style anchors securely, with plenty of space for rope and chain.

B Stainless steel latches: Lockable, flush mounted latches in the injection-molded composite doors keep your equipment safe and secure.

C Casting deck: This massive casting deck is perfect when you need to run a full crew and need room to move around.

D Rod locker: Roomy and secure, with improved molded rain lips on select models.

E Optional washdown: Convenient washdown system located in front of the rear starboard deck for quick and easy cleanup.

F Console rod holders: You'll always have the right rod within easy reach using these stainless steel console rod holders.

G Helm baitwell seat: New seat design and convenient location keeps you comfortable, while 13-gallon, aerated baitwell keeps your live bait healthy.

H Ergonomically designed helm: Helm includes center-mounted wheel, easier access to electronics and storage, eight chrome rod holders and increased leg room than competitors.

I AM/FM radio with iPod® connection: Lets you bring along your favorite tunes.

J Cleats: Stainless steel pop-up cleats snap down when not in use.

K Console access door: Conveniently access your battery charging systems or electronics when needed.

L, M Leaning post: Stainless steel leaning post with under seat storage for your keys and spare Skeeter cap, rocket launcher-style rod holders, and optional seat back for that added comfort.

N Removable 80 qt. cooler: Removable cooler keeps your extra catch on ice or use it as a cooler to keep your refreshments cold.

O Rear deck baitwell/livewell: Keeps fish alive while you keep fishing and bait at hand when it's time to reset.

P Rigging locker: Makes it easy to access your pumps and bilge area when in the water or on the trailer.

Q Jump seats: Fold-down convenient jump seats with enhanced dry storage underneath with a drop-in bin.

R Rear deck: Keep your extra gear secure in deep, dry, lockable storage boxes with easy access to your livewell and baitwell nearby.

S, T Rear storage: Keep equipment secure, dry, and easily accessible from the back deck with these wide storage compartments.

Features may vary according to model.
Please see your authorized Skeeter dealer for details.

SX240

SPECIFICATIONS:

Length on trailer 30'6"
Width on trailer 102"
Boat length 24'1"
Beam 101"

Engine shaft length 25"
Max. height on trailer 98"
Interior depth 18"
Draft 15"

Std. boat weight 2,925 lbs.
Max. horsepower 300

CAPACITIES:

Max. weight 1,800 lbs.
Max. persons 8/1,160 lbs.
Fuel capacity 75 gals.

Extra-large insulated starboard fish box keeps your catch secure and fresh.

Massive casting deck provides plenty of room even with a full crew.

Use this convenient 190 qt. forward deck cooler to keep your refreshments cold and easily within reach.

Two comfortable jump seats open for rear storage and fold flat for a larger stern casting area.

SkeeterSaltwater.com

SKEETER.
ENGINEERING CONCEPTS

Aluminum Torque Transfer Transom

This patented revolutionary system, exclusive to Skeeter and standard in the SX240, is constructed of high-test aircraft grade structural aluminum bolted through our full width, EX-Cel composite transom. It is designed to

transfer the tremendous energy and stress developed by the thrust of today's high torque outboards to the bottom structure of the hull eliminating stress on the transom and hull sides.

For boat colors as shown, see page 25.

SX2250

SPECIFICATIONS:

Length on trailer	28'8"	Max. height on trailer	99"
Width on trailer	102"	Interior depth	22"
Boat length	22'6"	Draft	15"
Beam	101"	Std. boat weight	2,775 lbs.
Engine shaft length	25"	Max. horsepower	250

CAPACITIES:

Max. weight	1,851 lbs.
Max. persons	8/1,096 lbs.
Fuel capacity	53 gals.

Convenient bow storage keeps gear and supplies below front deck, with easy-access hinged hood.

Massive 30 gal. livewell and baitwell keeps your catch fresh and your bait handy.

Two comfortable jump seats open for rear storage and fold flat for a larger stern casting area.

Non-skid gunwales feature a molded textured surface for added safety.

Keep equipment secure, dry, and easily accessible with rear storage compartments.

Luxury isn't what it used to be.
IT'S BETTER!

SkeeterSaltwater.com

SKEETER ENGINEERING CONCEPTS

Smooth & Dry Ride

Skeeter's unique bay boat hull design combines an aggressive deep-V at the bow and uncompromising tapered deadrise making it second to none. The deeper V and higher gunnels of the SX2250 allow you to slice through the waves and run offshore but you can still reach fish in the shallows because of

the shallow draft. Brute strength and a smooth ride coupled with a detailed deck layout makes the SX2250 the most efficient boat you'll ever own.

For boat colors as shown, see page 25.

Keep your fish or bait fresh and lively longer with this reconfigured 40 gallon baitwell.

Deep and wide bow storage compartment redesigned with molded rain lip to keep your gear dry and easily within reach.

Extra large and insulated 102 qt. starboard fish box to keep your catch secure and fresh.

Store tackle, PFDs, and anything else you need for a great day on the water in these improved storage bins.

Enhanced dry storage underneath the jump seats, with a drop-in bin, make for easy loading and added comfort.

SkeeterSaltwater.com

GRAB THEIR ATTENTION,
then leave it behind.

SKEETER
ENGINEERING CONCEPTS

250 HP Yamaha VMAX SHO®

When you're ready for more power, this motor combines massive thrust with Yamaha reliability. With up to 13% quicker hole shot, the 250 HP V-6 big-bore four stroke gets you moving in a hurry. And once it reaches top end speed, you may need to hold

on to more than your hat. In this sport you have to think fast and that's what Skeeter and Yamaha continue to do best.

For boat colors as shown, see page 25.

SPECIFICATIONS:	
Length on trailer.....	27'8"
Width on trailer.....	102"
Boat length.....	21'10"
Beam.....	98"
Engine shaft length.....	20"
Max. height on trailer.....	98"
Interior depth.....	18.5"
Draft.....	11"
Std. boat weight.....	2,150 lbs.
Max. horsepower.....	250

CAPACITIES:	
Max. weight.....	1,851 lbs.
Max. persons.....	8/1,096 lbs.
Fuel capacity.....	53 gals.

Keep your casting net and gear stored conveniently in this new floor storage with easy access.

Standard 8" hydraulic jackplate makes it easy to adjust engine height and run into skinny water.

Fold-down convenient jump seats with enhanced dry storage underneath with a drop-in bin.

Rear rigging door makes it easy to access your pumps and bilge area when in the water or on the trailer.

Get skinny fast! Skeeter's unique tunnel hull enables you run in only inches of water as you blast across the bay.

SkeeterSaltwater.com

Unleash your
VERSATILITY.

SKEETER.
ENGINEERING CONCEPTS

Get Skinny Fast!

The ability to chase the game fish into the shallow sand banks can yield a delicious reward. Flats become your ambush zone when the optional tunnel hull and adjustable hydraulic jackplate of the newly redesigned SX220T leave your prey nowhere to hide. Skeeter's exclusive SX220T

tunnel hull option provides the smooth, dry ride of a V-Hull while providing excellent shallow water performance.

For boat colors as shown, see page 25.

SX200

SPECIFICATIONS:

Length on trailer 25'6"
Width on trailer 102"
Boat length 19'8"
Beam 98"

Engine shaft length 20"
Max. height on trailer 93"
Interior depth 18.5"
Draft 10"

Std. boat weight 1,900 lbs.
Max. horsepower 150

CAPACITIES:

Max. weight 1,392 lbs.
Max. persons 5/737 lbs.
Fuel capacity 42 gals.

Keep your fish or bait fresh and lively longer with this reconfigured 34 gallon baitwell.

Deep and wide bow storage compartment redesigned with molded rain lip to keep your gear dry and easily within reach.

Two comfortable jump seats, perfect for your family, that fold flat to expand the stern casting deck.

Use the drop-in bins to make it easy loading in the dry storage underneath the fold-down jump seats.

Flip/flop seating with 100 qt. cooler underneath with seat back for that added comfort.

AFFORDABLE *peace of mind*

SkeeterSaltwater.com

SKEETER

ENGINEERING CONCEPTS

Industry's Strongest Hull

The transom, stringers, hull and deck utilize aerospace derivatives known as EX-Cel composites, which provide outstanding strength and durability. The console is composed of a crosslinked foam, sandwiched between layers of fiberglass and vacuumed infused with resin which provides unparalleled strength. Unlike our competitors, we only use closed-cell polyurethane foam for floatation and build the strength into our extra thick hull and deck sides using our unmatched fiberglass lamination process.

For boat colors as shown, see page 25.

STANDARDS and Options.

GET THE BOAT YOU'VE ALWAYS DREAMED OF.

You know how you want it look, now decide how you need it to work just for you and your family. Skeeter gives you plenty of options to fit your style, whether you're fishing, skiing or taking an evening cruise. Customize your cockpit, seats, trailer and more to build your ultimate rig from stern to stern.

COCKPIT

Upgrade your console to include a custom deluxe T-Top. Add handrails, ski tow bar, storage and even a canopy and audio system.

ELECTRONICS

Skeeter offers a full line of electronics including Humminbird® and Lowrance®. Add depth finders, GPS and other technology options.

POWER & PERFORMANCE

Choose from a variety of trolling motors from Minn Kota® or MotorGuide®. Add a battery charger, shallow water anchor, hydraulic jackplate and more.

CONSTRUCTION & SAFETY

The best-built boats on the water come with available options like a boarding ladder, vertical rod holders and a wash down system.

TRAILER

From a swing-away tongue, aluminum wheels and disc brakes to fender upgrades, Skeeter gives you options for premium performance and styling.

INTERACTIVE BOAT BUILDER

BUILD YOUR OWN BOAT AT
SKEETERSALTWATER.COM.

With Skeeter's interactive boat building software the only limit is your imagination. Make your selections. Print out a color mock-up. Hang it up. Let your family weigh in and do it again. Select "Build My Skeeter" at skeetersaltwater.com. It's fast, easy and fun to create a style all your own.

BAY BOAT *Series* TRAILER

GET YOUR BOAT IN AND OUT OF THE WATER WITH CONFIDENCE.

This trailer is designed and built to withstand both the tough demands of the highway and the harsh conditions of saltwater.

TRAILER FEATURES:

DURABLE DOUBLE ROLLER
Adding protection and ease during launching and loading, the durable front and rear double rollers help maintain hull integrity.

HEAVY-DUTY TONGUE JACKET
Keeping you securely fastened to your ride, the heavy-duty tongue jacket also effectively guards against theft.

4X CROSSBAR BUNK SUPPORT
Strength and durability are built right in with 4X crossbar bunk support that is reinforced to carry the load and maintain a stable ride.

SALTWATER ALUMINUM WHEELS
Adding style with quality, the distinct saltwater aluminum wheels ensure years of dependable performance and confidence.

SWING AWAY TONGUE JACK
Heavy-duty jack is designed to swing completely out of the way when trailering and easily guides you into storage.

ALL-WELDED CONSTRUCTION
Full body welds reduce the number of mechanical fasteners and greatly increase the life of the trailer.

HUMMINBIRD
SIMPLY. CLEARLY. BETTER.

IF YOU LOOK CLOSELY, YOU CAN SEE THEIR TINY WHITE FLAGS.

WITH FOUR POWERFUL TECHNOLOGIES, FISH DON'T STAND A CHANCE.

They can swim but they can't hide—because Humminbird® sonar has every angle covered. Side Imaging® gives you a remarkably detailed, 480-foot side-to-side view. Below your boat, choose from incredible Down Imaging® and the two exclusive display modes of SwitchFire®. And now, there's no hiding from the rotating, 300-foot coverage of 360 Imaging®. With all this technology, surrender may be their best option. Find out more at humminbird.com

SUPPORT

CATCHING FISH ISN'T THE ONLY BENEFIT. There's also the money. Skeeter sanctioned approximately 3,000 tournaments last year as part of our Real Money program. Supporting grass roots fishermen is part of our culture. What else would you expect from a company of fishing fanatics?

SkeeterSaltwater.com

WIN UP TO \$3,000 FOR EACH ELIGIBLE TOURNAMENT.

Win the most while fishing the best. It's easier now, with the 2013 Skeeter Real Money Program. The payouts at grass roots events keep growing and this year's purse could be even higher. Just another reason why we're the leader in tournament fishing. Register for Real Money today. Real Money Program dates are from January 1 through December 31, 2013.

1. **BUY** a Skeeter boat. Purchase any new or used Skeeter boat powered by a Yamaha engine from a dealer or private party.
2. **REGISTER.** Visit your local, authorized Skeeter dealer to obtain a registration form, or download at skeetersaltwater.com. You must register each year to be eligible. If you acquire a different Skeeter boat after you are registered, please contact Skeeter to change the serial number to your registration by calling 903-983-5657. A \$25.00 registration fee per angler includes a membership card, an Official Real Money hat, Real Money boat decal, Skeeter truck decal, and patch.
3. **FISH & WIN** in a contingency-sanctioned paying event. A list of sanctioned tournaments and payouts are posted on our Web site. A schedule of sanctioned tournament dates is compiled in late winter, and updated periodically on our Web site. Schedules are subject to change without notice.
4. **GET PAID.** Payments will be made once Skeeter receives and approves "official" tournament results from you and all Rules and Conditions for applicable year have been met. To be eligible for incentive, you must register prior to participating in a contingency-sanctioned paying event.

APPAREL

TELL THE WORLD YOU LOVE THE GOOD LIFE with our full line of Skeeter apparel and gear. It's great looking and durable, just like everything else with the Skeeter name. Shop online at skeetersaltwater.com.

Your passion comes through loud and clear when you're wearing Skeeter apparel.

Clothes make the fisherman, too.

Are you a FRESHWATER FANATIC?

CHECK OUT OUR FRESHWATER CATALOG

Call 1-800-SKEETER or visit SkeeterBoats.com to request a Skeeter Freshwater catalog today.

SkeeterSaltwater.com

When it comes to CONTROL

INDUSTRY STANDARDS ARE
JUST THE START.

TO US, "LIST," "SLIP" AND "SKIP" are the worst kind of four-letter words. In tournament conditions or just cruising the bay, you never know when you'll need to turn on a dime. That's why Skeeter control is legendary. We start with NMMA®, U.S. Coast Guard, and American Boat & Yacht Council® standards, then go above and beyond for the ultimate in performance and safety.

ENGINEERED LIKE NO OTHER

SMOOTH & DRY RIDE

The aggressive 20-degree deep-V of the Skeeter hull design works in conjunction with the primary and secondary reverse chines to keep the water off of you and in the bay. Smooth and dry is how every ride is remembered in a Skeeter.

FLOATS SHALLOW

You want to go where the fish are. And sometimes that means the shallows. We engineered our boats for maximum performance in minimum depths. Because sometimes the difference in a great catch is a matter of inches.

QUICK HOLE SHOT

When you bring the hammer down, a quick view of the bow is all you get. Getting on plane takes a mere three to four seconds as the hull levels into a highly aggressive attitude. Without a second to lose, we put you in a better position to win.

EMERGENCY TURN DEMONSTRATED
BY A PROFESSIONAL DRIVER AT A
SAFE AND MANEUVERABLE SPEED.

LEADING THE WAY

Revolutionary ideas. Constant testing. Rigorous manufacturing standards. Commitment to input from pros, dealers, and consumers. It all translates into peace-of-mind and stronger resale values. Enjoy your time on the water with the confidence that your Skeeter has been **Engineered Like No Other.™**

ALL SKEETER BOATS HAVE BEEN CERTIFIED
by the National Marine Manufacturers Association®, and meet all United States Coast Guard and American Boat & Yacht Council requirements.

THE NMMA® 90° MANEUVERABILITY TEST

The test is conducted by accelerating the boat to its maximum speed, and then sharply turning the steering wheel 180 degrees with no change in settings. The boat passes the test by completing a 90° change in direction without the driver losing confidence in his ability to maintain control.

(+) **PASS:** DRIVER MAINTAINS CONTROL AFTER 90° TURN

(-) **FAIL:** DRIVER LOSES CONTROL AFTER 90° TURN

THIS CRITICAL TEST IS JUST ONE EXAMPLE OF HOW WE NOT ONLY
ADHERE TO, BUT EXCEED OUR INDUSTRY'S TECHNICAL PRACTICES.

Reliability

THE PERFECT POWER FOR YOUR BOAT.

With a Yamaha outboard behind you, there's nothing but good times ahead of you. Yamaha is as obsessed with reliability as you are with the water. Every last detail is engineered to give you advanced outboard technology you can count on. Every weekend. Every year.

THE YAMAHA VMAX SHO® & NEXT GENERATION V6 OFFSHORE FOUR STROKES

THE FUTURE OF BAY BOAT POWER.

It's the first of its kind—a V-6 big-bore four stroke outboard for bay boats. And it's outperforming competition two strokes with:

- Up to 13% quicker hole shot
- Class-leading, 4.2 liter, big-bore displacement and power-to-weight ratio
- Next generation technology that's lighter than previous V6 two strokes and four strokes

That's just for starters.

It's also delivering clean-burning power and a level of fuel efficiency anglers never thought they'd see out on the open water.

Reliability Starts Here.®

DESIGN & Manufacturing

HOW WE MAKE BOATS FLY

FIRST, WE CALL ON SCIENCE — our boat-building techniques were developed by engineers from the aerospace industry. Then we apply a healthy dose of Skeeter passion. We talk to dealers. Run tests. Talk to customers. Run more tests. We're not satisfied until our boats achieve the performance and fishability worthy of the Skeeter name.

SkeeterSaltwater.com

PERFORMANCE HULLS

BUILT WITH YOUR STYLE OF FISHING IN MIND All our boats have a distinctive "V" shape that helps them move in and out of the water easier and faster. It also enables our boats to float in very shallow water and handle extremely well in either rough or shallow water. Be sure to look at our entire line to find the model that matches up best with your style of fishing.

"V" HULL MODELS SX240

If you tend to fish primarily offshore, this is probably the better hull for you. Ideally suited to longer shaft, 4-stroke engines, our V Hull models really operate well when you're trolling in big water.

"DEEP-V" HULL MODELS SX2250

With higher gunwales and a deeper V-hull shape, the SX2250 is built to cut through deep water and make the long runs through the passes. Brute strength and a smooth ride coupled with a detailed deck layout make the SX2250 the most efficient boat you'll ever own.

"BAY" HULL MODELS SX220, SX220T, SX200

Especially made for shallow water, when you're running and gunning. Shorter shaft, HPDI® engines increase the performance factor even more, with faster acceleration and higher top-end speeds.

A FINISH THAT LASTS: The polyflake finishes are applied using an exclusive "dry flake" system that allows the flake to be sprayed behind the clearcoat for a lustrous, durable finish that resists migration through the clear gel top coat and lasts longer. Additionally, our premium Armorcoat® gel coats are exceedingly tough and are considered the best in the industry in regard to weathering and blistering.

B MOLDED COMBINED DECK AND FLOOR: The floor is one solid piece. It is composed of a PVC crosslinked foam, sandwiched between layers of fiberglass.

C EX-CEL COMPOSITES, FOR THE INDUSTRY'S STRONGEST HULL: The transom, stringers and floor utilize aerospace derivatives known as EX-Cel composites, which provide outstanding strength and durability.

D INJECTION-MOLDED COMPOSITE DOORS: Combining state-of-the-art vacuum-infusion processes and materials with low-emission, environmentally-friendly techniques, the doors on your Skeeter Bay Boat are built to protect your gear for years to come. Specialty glass and resins combine with PVC cross-linked foam core to give you durable hatches that are lightweight, insulated, and highly resistant to impact and corrosion.

INNOVATION

THE MORE YOU STUDY IT,
THE SMARTER IT IS

E ALUMINUM TORQUE TRANSFER TRANSOM & STRINGER SYSTEM: This revolutionary system bonds high-test aircraft structural aluminum to the EX-Cel transom and stringer eliminating stress on the hull.

F COMPOSITE TWO-PIECE CONSOLE: From an advanced multi-step, hand-lamination process using fiberglass and resin materials, to the same industry's best Armorcoat® Technology used on our hulls and decks, the Skeeter Bay Boat console is built for fishermen. Each console features an insulated polyethylene baitwell, rod holders, stainless steel handrail, and a rear door for convenient access to batteries and wiring.

WITH POWER *Comes Control*

MORE ROOM FOR YOUR LEGS, MORE ROOM TO BREATHE, AND MORE ROOM TO DRIVE! This console was designed by you. Armed with valuable feedback from Skeeter customers and dealers, our designers set out to make our boats even more fisherman-friendly. The result? A completely different console with a boatload of additional features. Like a convenient center-positioned steering wheel, easy-access control panel, chrome rod storage and increased legroom. Basically, we took the best bay boats on the water — and made them better.

CONSOLE FEATURES:

- **CENTER-POSITIONED STAINLESS-STEEL STEERING WHEEL:** Designed to put the steering wheel where you naturally stand when driving—the center of the console.
- **YAMAHA COMMAND LINK® GAUGES:** Engine function, fuel management, water depth, temperature, trolling RPM control. *Standard on F250 and F300 engine selections.*
- **FLEXIBLE MOUNTING OPTIONS:** Electronics can be flush-mounted or dash-mounted.
- **2-PIECE CONSTRUCTION:** For easier maintenance and servicing.
- **INCREASED LEG ROOM:** Angled base gives you more room to step closer to the console or lean back while you cruise the bay.
- **EXTRA-LARGE BATTERY ACCESS DOOR:** Easy-in and easy-out. Hinged door is large enough to reach and store four batteries side-by-side. Hooking up your deep-cycle trolling batteries at the end of a long day on the water is a breeze. And storing all your batteries in the console together increases optimal weight distribution.
- **EASY-ACCESS CONTROL PANEL:** Rocker switches all at your fingertips.
- **8 CONSOLE ROD HOLDERS:** You'll always have the right rod within easy reach.
- **CONSOLE BAITWELL WITH SEAT AND BACKREST:** Functional and comfortable.

DESIGN FEATURES:

- **EXPANDED LEANING POST:** Wider and deeper with a larger backrest, Skeeter's new Leaning Post adds comfort and storage where you need it.
- **REDESIGNED DECK LAYOUT:** Expanded front casting deck with larger rod boxes featuring compression-sealed chrome latches with improved seals. Taller rain lips and added deck drains help keep your gear dry and secure.
- **TINTED LIVEWELLS AND BAITWELLS:** Colored light blue to more closely match the natural environment of bait fish and provide a more soothing environment.
- **REINFORCED MOUNTING:** The Skeeter Saltwater console and leaning post are firmly attached to aluminum bolster plates hidden under the floor for long-lasting durability and maximum stability. Most competitors just run lag screws into the floor itself and call it done. Skeeter actually drills and taps the aluminum bolster plates, then connects your console and leaning post with heavy duty bolts directly to the metal. Our optional T-Tops® are installed the same way ensuring a build that will last for years to come. *Aftermarket products shown. Options may vary.
- **ENGEL® DEEP BLUE PERFORMANCE COOLER:** The number one rated cooler in the country. Roto-molded of seamless polyethylene, it was designed from the ground up to re-define what an ice chest could be. A full 2" of dense polyurethane foam is injected top, bottom and sides to provide 8-10 days of cold-keeping capability.

Simply the best: Air tight freezer gaskets and flush-mounted marine grade latches with stainless steel hardware seal the lid. Add to that a pitched, self-draining bottom and large non-skid, non-marking feet, molded hand grips and convenient rope handles and it really is everything an ice chest could be.

Engineered for the waves, the flats, **AND EVERYTHING IN BETWEEN.**

On a good day of fishing, you could be powering through big water, racing across the bay, navigating shallow inlets and dodging alligators in the reeds. That's why our Bay Boat Series comes standard with the most important feature of all — versatility. These boats have the muscle and agility to hunt down the fish wherever they are, and leave them no place to hide.
