

**SKEETER**  
PERFORMANCE FISHING BOATS

**BAY**  
**2019 CATALOG**

Since 1948, we've been upholding a tradition of excellence. Our innovative products introduced over the past 71 years have taken hold as industry standards. At Skeeter, our motivation to provide our customers with the best fishing experience on the water has never been higher. Our owners share a passion for their boats that connects them like a family.

Though we're proud of our records in customer satisfaction, we will never stop trying to improve on what we have accomplished. That philosophy is why we have invested time and resources into industry-driving designs like the Torque Transfer System and the React™ keel. Making a better boat is embedded in our DNA.

From our tried-and-true bass lineup, to our award winning deep-v models and newly restyled bay boats, every day our more than 300 employees demonstrate a commitment to performance and dependability. With a new plant dedicated to making SkeeterBuilt™ Trailers, we keep expanding to meet the needs of anglers.

Our lineup for 2019 continues to push the envelope with innovative new designs that offer the utmost in quality and performance. After 71 years, we believe that's what you expect from us. Whether your taste runs to the tournament trails, well-earned luxury, a day on the water skiing and fishing with your family, or a quiet morning when it's just you and the fish—Skeeter wants to provide you the ultimate experience each time you take to the water.

Sincerely,

Jeff Stone

*Sr. Vice President/General Manager, Skeeter Products, Inc.*

# Our passion is BUILDING SUPERIOR FISHING BOATS.

*Eat. Sleep. Fish.*

## 1948 HOLMES THURMOND

In 1948, the first Skeeter Bass Boat, believed to be the first bass boat ever, was built by Holmes Thurmond in Shreveport, Louisiana. It was just over 13-feet long, made of molded marine plywood with a flat bottom and tumblehome side decks. Locals dubbed it the "Skeeter" because of its long, needle-shaped nose resembling a mosquito.

## 1961 STEMCO MARINE

In 1961, Ben Cook, co-founder of Stemco Corporation, acquired the patent rights of Skeeter and moved the Skeeter plant from Marshall to a bigger operation in Longview, Texas. During this period, fiberglass boats were built and stick steering was developed to control the longer 15-foot Super Skeeter and Skeeter Magnum Boats. The need for bigger boats, larger horsepower, and more control at high speeds began with a series of tri-hulls in the mid-'60s.

**No other boat manufacturer boasts the rich history and heritage of Skeeter.**

For almost seven decades, generations of anglers have trusted Skeeter for their best fishing memories. Our production process uses advanced manufacturing techniques and materials, many of which were first used in aerospace applications. Skeeter's X-Treme and EX-Cell composite construction ensure a smooth, dry, and safe trip to your favorite fishing hole.

## 1983 COLEMAN

In 1983, the Coleman Company, famous for its camping equipment, purchased Skeeter, and the Fish 'n' Ski series was launched. Skeeter also introduced the first SX bass model. Despite an economic recession growing at the end of the decade, Skeeter's future remained bright with recognized hull designs that continued to lead the industry.

## 1990 FIRST DEEP-V BOAT

Skeeter developed a line of Deep-V boats with the most popular walleye model taking triple crown at Angler of the Year in all three major walleye professional tour circuits. Today, Skeeter continues its Deep-V tradition with its WX and MX Series.

## 1950s FIRST TO USE FIBERGLASS IN BOATS

The late 1950s saw the use of a new composition of materials for building boats as Skeeter became one of the first innovators to use fiberglass in its construction. Fiberglass made it possible for more sizes and styles of Skeeter boats to be quality produced in much larger numbers. Throughout the South, many are still in use today by avid Skeeter fishermen.

## 1975 FIRST V-BOTTOM BOAT

Further growth in the early 1970s saw the expansion of operations to Skeeter's current plant site in Kilgore, Texas. A quantum leap in boating was made in 1975, when Skeeter developed the first V-bottom bass boat. This set a new standard in boating performance, as Skeeter was the first to introduce a 150-hp rated bass boat, which became popular on the then fledgling bass circuits. The race was on for high-speed performance, and Skeeter was clearly in the lead with its Wrangler line of boats.

## 1992 THE ZX SERIES AND FIRST BAY BOAT

In a quest for offering the ideal tournament bass boat, Skeeter unveiled the ZX Series in 1991. The innovative hull design provided a level of performance never seen before. Couple that with a super-wide casting deck, ample storage throughout, and full-length rod boxes. It is no wonder the ZX Series is our #1 selling line of boats in Skeeter history. That same year, Skeeter also launched the company's first saltwater-specific boats, the high-performance, center-console Bay Pro series. Today, Skeeter continues its Bay Boat tradition with its SX Saltwater Series.

**1996  
YAMAHA**

In February of 1996, Skeeter was proud to announce that all Skeeter boats would be factory packaged with Yamaha outboards, as a result of the acquisition of Skeeter Boats by Yamaha Boat Company, a subsidiary of Yamaha Motor Corporation. It was a proud moment in Skeeter's history, and teaming up with the most technologically advanced outboard engine company in the world brought new resources and many advancements to Skeeter.

**2000s  
TORQUE TRANSFER SYSTEM**

An all new Torque Transfer Transom was introduced in boat models for 2001, which set the industry precedent in modern construction. This revolutionary system is constructed of high-test, aircraft-grade structural aluminum and is bolted through the full-width, EX-Cel composite transom. It is designed to transfer the vertical torque and energy from the engine to the stringer system in the bottom of the boat, while providing lift along the entire keel of the boat.

**2010  
THE FX SERIES**

Breaking barriers and building the dream of a bass boat all others are measured against led to the introduction of Skeeter's FX Series. This line-up of the FX20 and FX21 redefined the standard for the tournament angler, providing a competitive edge on the water.

**2014  
INTRODUCTION OF COLOR AND FEATURE PACKAGED BOATS**

In 2014, Skeeter began offering high impact product packages with exclusive colors and features. These packages were aggressively priced, offering the buyer more bang for their buck with tools to maximize their fishing experience.

**2017  
SKEETER BUILT™  
TRAILERS**

In 2017, Skeeter built a 43,000 square-foot facility in Kilgore, Texas, and began building trailers in-house. Our new Skeeter Built™ Trailers are fabricated with channel steel using a multi-step, quality-approach process and come with an exclusive limited lifetime warranty. Our digital wheel and axle alignment technology provide an added peace of mind.

2019

Over 20 Years  
with  
**YAMAHA**

**"If you are going to make it,  
make it the very best there is."**

– Genichi Kawakami  
*Yamaha Motor's first president.*

From the beginnings of Yamaha Motor Corporation in 1953, the stage was set for success through a vision of innovation. Only a few years before that, Holmes Thurmond built what is believed to be the first bass boat, designed upon many of the very characteristics of today's bass boats – stability, shallow draft, room for tackle and gear and easy movement around the inside of the boat. His boat was dubbed a "Skeeter" because of its long, needle-shaped nose that resembled a mosquito. These two founders of fishing joined forces in 1996, when Yamaha Motor Corporation purchased Skeeter. Throughout the past 20 plus years, Skeeter has introduced the next generation of saltwater boats, and our SX Series is the best on the water. These boats have also served as the platform for Yamaha's four-stroke SHO engine technology – combining a powerhouse in boating and fishing. Along the way, Yamaha motors have been keeping the Skeeter bay boats ahead of the pack with unmatched performance and reliability.

The next generation in  
**OFFSHORE  
POWER** is here.

### Yamaha V MAX SHO V6 Offshore Four Stroke

The power you need, with the reliability you demand. With Yamaha's legendary four stroke series, you can leave your anxiety at the dock. Yamaha outboards are designed to the last detail – engineered to give you the ultimate technology for performance, power, acceleration, fuel efficiency, and reliability.

### THE FUTURE OF BAY BOAT POWER.

It's the first of its kind – a V-6 big-bore four stroke outboard for bay boats. And it's outperforming competition two strokes with:

- Up to 13% quicker hole shot
- Class-leading, 4.2 liter, big-bore displacement and power-to-weight ratio
- Next generation technology that's lighter than previous V6 two strokes and four strokes.

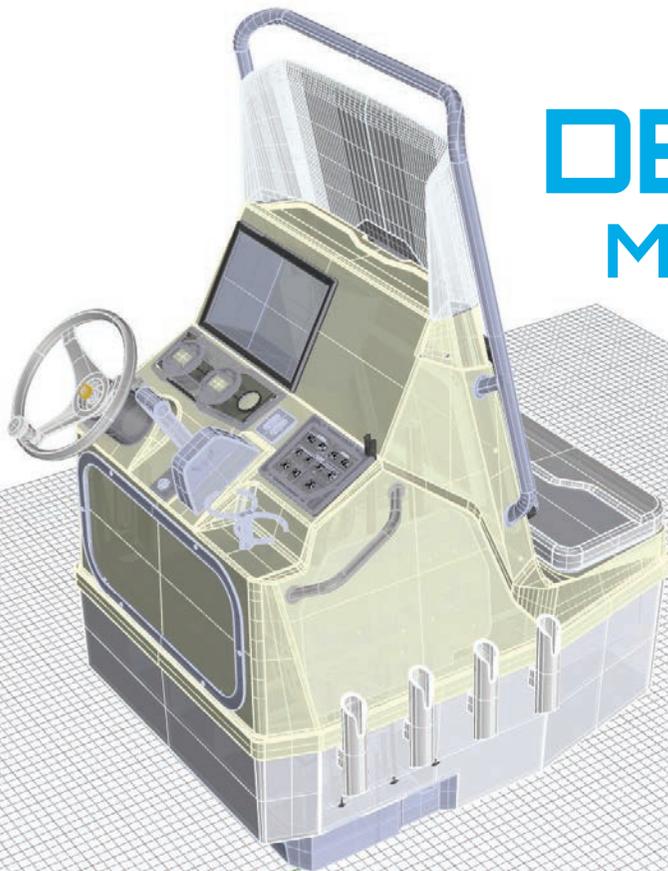

### THAT'S JUST FOR STARTERS.

It's also delivering clean-burning power and a level of fuel efficiency anglers never thought they'd see out on the open water.

# DESIGN and MANUFACTURING

Ingenuity and innovation  
in engineering.

**First, we call on science** – It's an art. It's a science. Boaters and anglers ourselves, the team that builds each and every Skeeter boat is committed to innovation and engineering, with the highest level of quality. Our boats are engineered, designed, prototyped, and tested to the max. Want to see this first-hand? Call us to schedule a factory tour!

**A AEROSPACE COMPOSITES**

For some of the industry's strongest fiberglass hulls: the transom, stringers, and floor utilize aerospace derivatives known as EX-Cel composites, which provide outstanding strength and durability. Unlike our competitors, we only use foam for flotation and build the strength into our extra thick hull and deck sides using our unmatched fiberglass lamination process.

**B TORQUE TRANSFER SYSTEM**

This revolutionary system, exclusive to Skeeter, is constructed of high-test aircraft grade structural aluminum bolted through our full width, EX-Cel composite transom. It is designed to transfer the tremendous energy and stress developed by the thrust of today's high torque outboards to the bottom structure of the hull.

*Only available on the SX240, SX230, and SX210.*

**C PROTECTING YOUR GEAR**

We know you invest heavily in your gear, so we use a vacuum-infusion process with state-of-the-art materials on our hatches, latches and storage areas to keep your gear safe and dry. Specialty glass and resins combine with PVC cross-linked foam core to make hatches lightweight, insulated, and protected from the often harsh saltwater environment.

**D CONSOLE FOR EVERYTHING**

Our hand-lamination process using fiberglass and resin materials, along with Armorcoat Technology, makes our SX Series consoles tight like a safe. Each console features an insulated polyethylene baitwell, rod holders, stainless steel handrail, and rear door for easy access to batteries and wiring.

When it comes to  
**PERFORMANCE**  
we're overachievers!

Setting the standard and breaking the mold is how we roll. All our boats have a distinctive "V" shape that helps them move in and out of the water easier and faster. It also enables our boats to float in very shallow water and handle extremely well in rough water. Be sure to look at our entire line to find the model that matches up best with your style of fishing. When it comes to performance, our boats are **Engineered Like No Other.**

# Get the HULL picture.

TO US, "SLIP," "SLIDE" AND "SKIP" are the worst kind of four-letter words. In tournament conditions or just cruising the bay, you never know when you'll need to turn on a dime. That's why Skeeter's control is legendary. We start with NMMA®, U.S. Coast Guard, and American Boat & Yacht Council standards, then go above and beyond to achieve the ultimate in performance and safety.

## PERFORMANCE DESIGN

Our deep-V hull has a performance deadrise designed to cut through chop. This works with the unique primary and secondary reverse chines to keep you dry, and ensure a smooth ride.

## FLOATS SHALLOW

Our inshore boats are designed to run shallow. Engineered with balance, your Skeeter will run where the fish are, but get you out when the tide changes.

## FOUR SECONDS

With our unique design and the power of your Yamaha outboard, you'll be up on plane in a matter of four seconds.

### SX240 / SX230

In this case, bigger is better. For near shore and offshore, our SX240 and SX230 provide more space and a larger hull – with the Yamaha power to match.

### SX2250

Versatility redefined. With a deeper V-hull, higher gunwales, and optimal deck layout, the SX2250 is great for shallow waters, trolling, or rig fishing.

### SX220 / SX210 / SX200

Made for inshore and shallows, these models provide smooth performance from standstill to top-end.

\*BOATS SHOWN MAY INCLUDE DEALER INSTALLED OPTIONS NOT AVAILABLE FROM THE FACTORY.

# RECORDS are meant to be BROKEN and we love breaking them.

For the 18th consecutive time, Skeeter has been recognized by the National Marine Manufacturers Association® (NMMA®) CSI program for “Excellence in Customer Satisfaction for Fiberglass Boats.” The Marine Industry CSI Program honors companies that maintain a customer satisfaction rating of 90 percent or higher. Proof that our focus stays on you. What does this mean to you, our customer? It’s a testament of our dedication to building the best quality product while providing excellent sales and service throughout your experience as a Skeeter boat owner. Your comments and suggestions enable Skeeter to provide continuous improvements, thereby enhancing your confidence that Skeeter and its dealers will remain your fishing partner for life.

All Skeeter boats have been certified by the National Marine Manufacturers Association®, and meet all United States Coast Guard and American Boat & Yacht Council requirements.

## Our Warranty is Second to None

### LIMITED LIFETIME WARRANTY

- Limited Lifetime Structural Warranty
  - 10 Year Limited Transferable Structural Warranty
  - 3 Year Limited Component Warranty
- Skeeter offers the original retail purchaser a Structural Warranty that covers any major structural defects in the material or workmanship, for the duration of the ownership.
  - Unlike most companies, the **Structural Warranty may also be transferred to the second owner for a full 10 years from the first retail purchase date.**
  - Skeeter also offers a Component Warranty to the first retail purchaser, where certain factory-installed parts are covered for up to three years from the date of purchase. The Component Warranty may not be transferred to a second owner and is subject to limitations outlined in the 2019 Skeeter Fiberglass Limited Warranty.

DEALERS

## INTERNATIONAL APPEAL—LOCAL ROOTS

With 137 dealers in 38 states and international dealers and distributors in Canada, Japan, Mexico and South Africa, you're never far from your local Skeeter representative. Where there's water, you'll likely find Skeeter nearby.

A white Skeeter SX Series boat is shown from a side-rear perspective, moving across a body of blue water. The boat features a white hull with a dark blue stripe along the bottom edge. The deck is white with several rectangular panels and a central seating area. A white outboard motor is mounted at the stern. The background is a vast expanse of blue water with gentle ripples.

**WHATEVER'S OUT THERE,  
THESE BOATS CAN HANDLE IT.**

# **SX** SERIES

**The right blend of performance and fishability.**

Whether you're fishing inshore, offshore, or anywhere in-between, these boats let you do it in comfort and style. Smooth, reliable, and quiet, regardless of the conditions. This year's models boast a new look that'll help you stand out from the others.

# COLOR DESIGN GUIDE

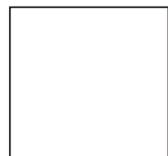

Whether it's the colors of your favorite college or professional sports team, the color of your pick-up truck or simply the boat bling to impress, Skeeter offers a wide range of options. Sea Foam Green? Got it. Sunshine Yellow? Check. How about Impulse Blue? Done. From the hull to the deck. From the seats to the stripes. Select "Build My Skeeter" at [SkeeterBoats.com](http://SkeeterBoats.com) and build your next fishing machine.

**BUILD MY SKEETER**

PASSENGERS 5

\*TOW WEIGHT 3,137 lbs.

\*TOWING WEIGHT IS CALCULATED WITHOUT GEAR AND FUEL AND IS AN APPROXIMATION ONLY.

It's all about presence.

For 2019 models, Skeeter is introducing a new contemporary hull style on our SX240, SX230, SX2250 and SX210 bay boats featuring a smooth-sided hull with a strong single gel color. It makes quite an impact when you see it on the water—or the trailer. To enhance the bold look even more, we've also updated our logo emblems making them larger and moving them just below the rub rail at the stern. Visit your nearest Skeeter dealer to schedule a demo ride and see how good it feels to be bold and smooth.

## SX FEATURES AND OPTIONS.

**1. Comfort Console:** Extra storage, access to the batteries, accommodates a changing area, and makes for a great day of fishing with the whole family. Includes a thirty-five quart Engel® cooler in front for additional seating. *Optional exchange on SX240, SX230 and SX2250.*

Portable toilet not included.

**2. Deluxe Lean Post with Fixed Back-Rest and Bolstered Seating:** Dual flip-up bolster seating includes integrated hinges, folding arm rests, flip-up foot rest, pro-series rod holders and grab handles. Includes an 80-qt. Engel® cooler. *Standard on the SX240, SX230 and SX2250.*

**3. Lean Post Baitwell:** 40-gallon baitwell with Skeeter plumbing is secured to the deck behind the lean post. Circular tank geometry and transparent gasketed lid helps keep your bait alive and fresh for an entire day of fishing. *Optional exchange on SX240 and SX230.*

**5. 80-Qt Engel® Deep Blue Performance Cooler:** The number one rated cooler in the country. Roto-molded of seamless polyethylene, it features a full two inches of dense polyurethane foam for 8-10 days of cold-keeping capability. Air tight freezer gaskets and flush-mounted marine grade latches with stainless steel hardware seal the lid. Add to that a pitched, self-draining bottom and large non-skid, non-marking feet, molded hand grips with rope handles and it really is everything an ice chest could be. *Standard on all SX models.*

Images shown above are courtesy of Engel. ©COPYRIGHT 2018-2019 Engel. All Rights Reserved.

**4. Optional T-Top:** SX2250 shown below with Omni Deluxe Coastal White T-Top with six rod holders.

**Deluxe T-Top:**

- 6 Rod Holders
- Double Ring Top
- 2 Rear Spreader Lights
- 1 Front Spreader Light
- 1 LED Anchor Light
- 2 Grab Handles
- Electronics Box w/ 4 LED Courtesy Lights
- Life Jacket Net Stow

**Stand-Thru Top:**

- 6 Rod Holders
- Double Ring Top
- 2 Rear Spreader Lights
- 1 Front Spreader Light
- 1 LED Anchor Light
- 2 Grab Handles
- Life Jacket Net Stow
- Upper Station w/ Lean Seat and Backrest
- 2 Rod Holders on Backrest
- 2 Front Shotgun Rod Holders on Helm Box Sides
- Custom Helm Box w/ Wire Runs

**Full Tower:**

- 1 Rear LED Spreader Light
- 1 Anchor Light
- Grab Handles
- Rear Shade with 6 Rod Holders
- Lean Seat w/ Backrest
- 2 Rod Holders on Backrest
- Custom Helm Box w/ Wire Runs
- 2 Front Shotgun Rod Holders on Helm Box Sides
- 2 LED Courtesy Lights in Tower Floor
- Rubber Insert Steps - Both Sides

**Economy T-Top:**

- 4 Rod Holders
- Single Ring Top
- 1 Front Spreader Light
- 1 Rear Spreader Light
- 1 LED Anchor Light
- 2 Grab Handles

**SKEETER BUILT™**  
PERFORMANCE TRAILERS

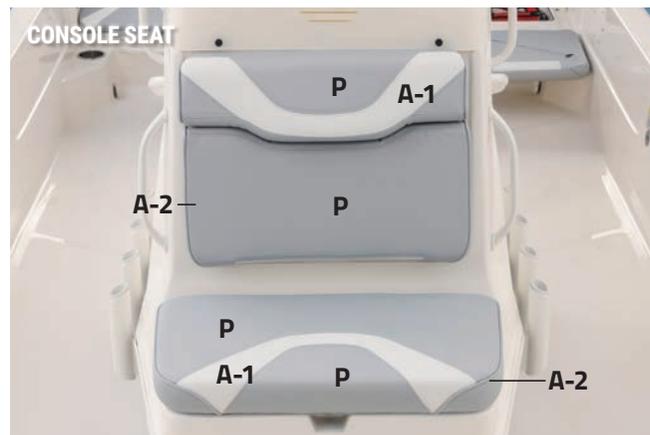

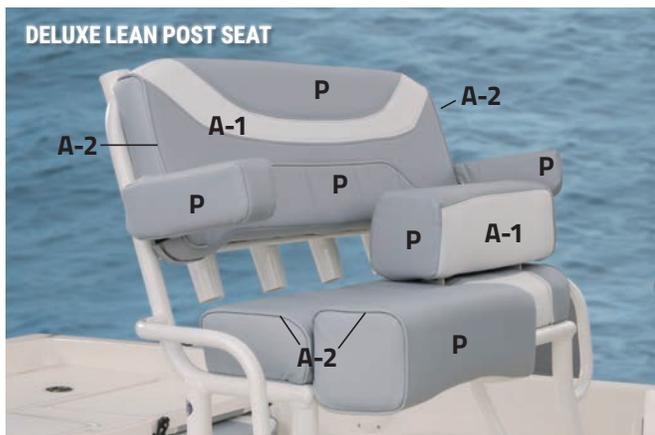

**6. Optional Bay Boat Trailer:** Made with Galvanized aluminum to withstand the rigors of saltwater and come back for more. SkeeterBuilt™ bay boat trailers feature independent tandem torsion axles with brakes on each axle, Fulton® wench, sealed LEDs, reinforced bunks and crossbars, step-side fenders, swing-away tongue with non-skid tongue step and more.

# UPHOLSTERY AND COLORS

Our premium quality upholstery vinyls offer superior abrasion resistance, UV resistance for up to 1,000 hrs, mildew resistance, are fire retardant and can withstand cold cracking to -10°F. We also use premium quality thread which outlasts cotton/polyester threads, is resistant to rot and decay and is guaranteed to last the lifetime of the upholstery.

ARE YOU  
ON BOARD?

WIN UP TO  
**\$3,000**  
IN 2019!

## Join the SKEETER FAMILY.

Our Real Money program sets the industry standard as a customer loyalty program – growing each year, and paying out hundreds of thousands of dollars in cash through hundreds of sanctioned tournaments at the local and state levels. Your boat is your ticket for the opportunity to win – and win big. Register for Real Money today!

What better way to spend time on the water with family or friends, connect with other Skeeter owners in your area and have the opportunity to win up to \$3,000 fishing in a sanctioned Real Money tournament? Dozens of chances to fish local tournaments could be just a short drive away. Don't miss out! Register today. Real Money Program dates are from January 1 through December 31, 2019.

### The Next Level In Customer Rewards That Really Pays

**\$3,000**

**FISH AND WIN** a Contingency Paying Event using your 2019 Skeeter Boat powered by a 225 horsepower Yamaha engine or larger and you will be eligible for \$3,000 for a win.

**\$1,000**

**FISH AND WIN** a Contingency Paying Event using your 2019 Skeeter boat powered by a 200 horsepower Yamaha engine or a 2018 Skeeter boat powered by a 225 horsepower Yamaha engine or larger and you will be eligible for \$1,000 for a win.

**\$500**

**FISH AND WIN** a Contingency Paying Event using your Skeeter boat powered by Yamaha and you will be eligible for \$500 for a win.

## HOW IT WORKS

- BUY** a Skeeter boat. Purchase any new or used Skeeter boat powered by a Yamaha engine from a dealer or private party.
- REGISTER.** Visit your local, authorized Skeeter dealer to obtain a registration form, or download at [SkeeterBoats.com](http://SkeeterBoats.com). **You must register each year to be eligible.** If you acquire a different Skeeter boat after you are registered, please contact Skeeter to change the serial number to your registration by calling (903) 983-5657. A \$30 registration fee per angler includes a membership card, an Official Real Money hat, Real Money boat decal, Skeeter truck decal, and patch.
- FISH & WIN** in a contingency-sanctioned paying event. A list of sanctioned tournaments and payouts are posted on our website. A schedule of sanctioned tournament dates is compiled in late winter, and updated periodically on our website. Schedules are subject to change without notice. Have a tournament trail you would like sanctioned? Contact your local Authorized Skeeter Dealer.
- GET PAID.** Payments will be made once Skeeter receives and approves "official" tournament results from you and all Rules and Conditions for applicable year have been met. To be eligible for incentive, you must register prior to participating in a contingency-sanctioned paying event.

## Enter. Fish. Win.

Please visit our website at [SkeeterBoats.com/Real-Money](http://SkeeterBoats.com/Real-Money) to register online, view complete details, terms and conditions, or see the most current list and schedule of sanctioned tournaments.

# APPAREL
